

WAR ON THE STREETS

CLASSWAR

FIGHT BACK!

BY ANY MEANS NECESSARY

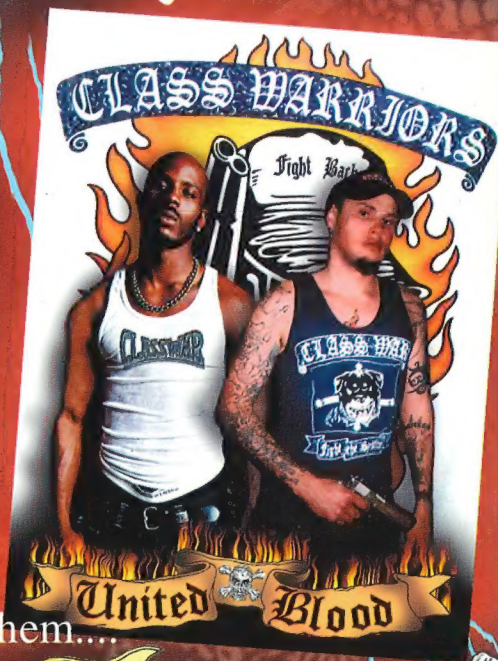

KNOW
YOUR
ENEMY

Class War has been declared.

It's us against them. Them, the parasites in suits who run and own everything. The BMW driving, private schooled rich cunts who never go without. They think they're above us and are untouchable . . .

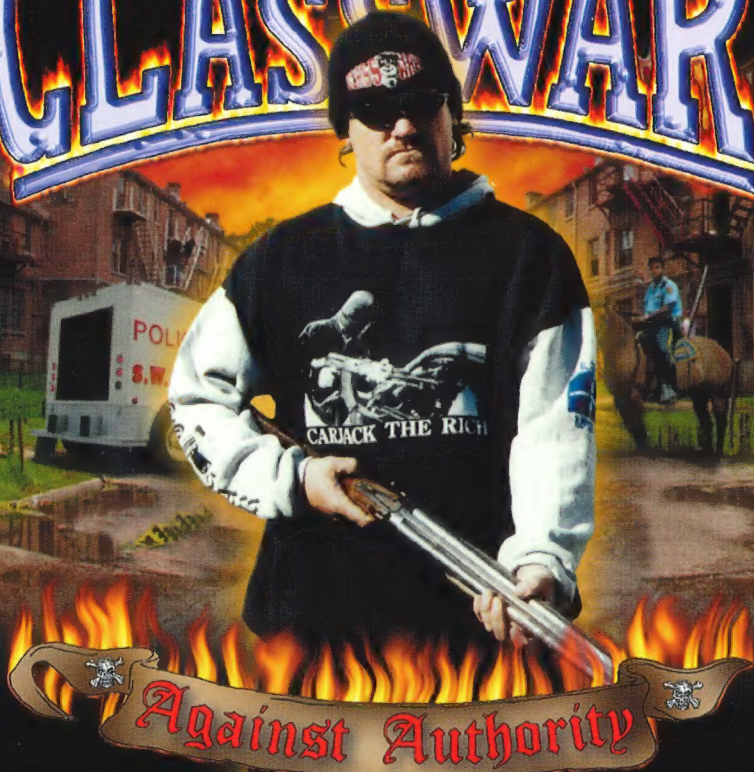

They have an army of police, judges, prison wardens, security guards and school teachers to keep us tame and under their control. They want us ripping off each other not them; dogging on one another and fighting amongst ourselves - so we never turn our anger on the real cause of our problems, our real enemy - the fucking rich and the scum who protect them....

Against Authority

CLAS\$WAR

Us, the people, who, no matter what they do, never seem to get ahead. We are always at the mercy of authority - the cops harass us not help us, the teachers treat us like shit, we are the bosses underpaid slave. We are the ones who will never see the inside of a private school or enjoy the security of 'gold card' health care. We are the multi-racial underclass in this fucked up society that gets overlooked and overworked, underpaid and ripped-off, arrested and imprisoned, disciplined and blamed by the golden shower of piss-ants that are our enemies and need to be treated as such.

ROB THE RICH

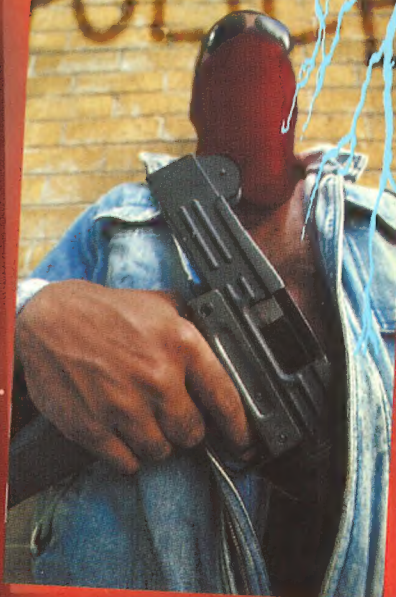

The media would have us look up to these people and do what they say. Well fuck that!

Don't listen to the t.v. and the papers. Don't believe their bullshit.

They want you to be a law-abiding fuckwit. A weak lamb that's easily led to the slaughterhouse.

It is o.k. to rebel and run wild-to attack and fight all that tries to tame you. They are trying to turn you into a a robot that obeys their every order - their order, their law and order. Their law and order to keep them at the top and you at the bottom.

ELITE SWAR
against authority

"Come on join us", the street kids shouted, 'Let's get revenge on the police'

when approached, they replied in chorus "Fuck the police".

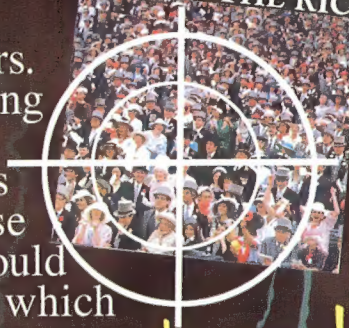

JUDGMENT DAY

ALL POWER TO THE PEOPLE

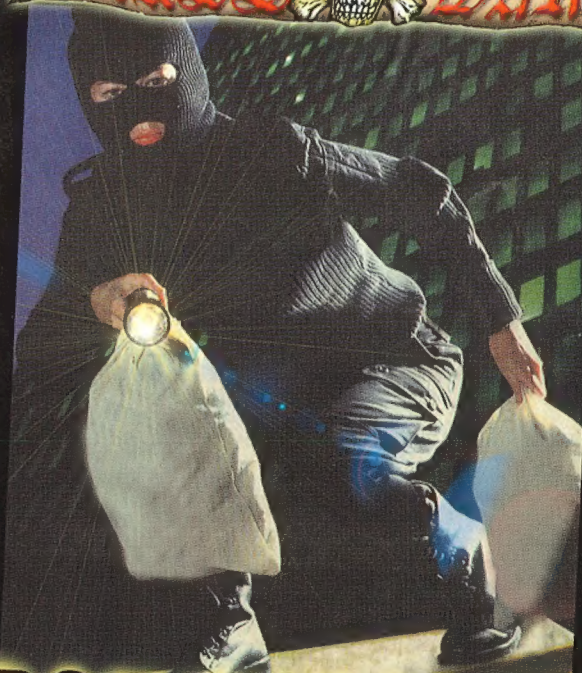

TARGET THE RICH

Well, it's their law and order, not ours. What's legal and illegal means nothing to us in our daily survival. The only law we should ever obey is our own: and that is a common sense code - a simple rule that says we should look after each other and attack that which holds us in place and attacks us.

"Rob the rich, not the poor... you know the score!!"

CLASS WAR

ROB THE RICH

The Underdogs

Fight Back

Just as law and order is the whip that they break our spirit with, our response is disorder - organised chaos...total fucken anarchy! Don't ever be afraid of wildness and disorder-it is natural and real and it makes you feel alive...Disorder is our power and power rules. This is our threat - out in the streets, everywhere, only stupid fools stand in line and behave themselves. The rules were made to be broken, and broken they will be. When we are out of control we are a threat because we are out of their control. We are throwing the rule book out the window and living on our own terms not theirs. Their terms make you a plastic dummy, our terms make you alive again.

Ours is to disobey, to retaliate, to attack and say "fuck off". Who are they to tell us what to do? Telling us to pay our taxes and dob in lawbreakers - why should we? Because they say so? Well fuck them - it is in their interest not ours, to dob in people, to do as we are told and respect the law and the rich. Do what they say? You must be fucking joking - them - the coppers, the judges and all their puppets on t.v. and radio. They are not on the same side as us, and thats all there is to it. We'll never do what they say. If you are going without, why shouldn't you shoplift? If you need money, why shouldn't you rob banks and the rich? They're robbing you . . .

If a van load of cops harass you, why shouldn't you come back with a rampaging mob and settle the score? If the boss gives you a hard time at work, why shouldn't you sabotage the job?

If the teacher canes you why shouldn't you grab the stick and belt them with it? If you get put on detention, why shouldn't you slash the teachers car tyre to remind them what inconvenience is like. They will say it is wrong, but these people make the rules to protect themselves and all their wealth and power from people like us. These people make a living ripping us off - so we say that their rules, their laws, their morals don't apply to our reality, our lives and our survival.

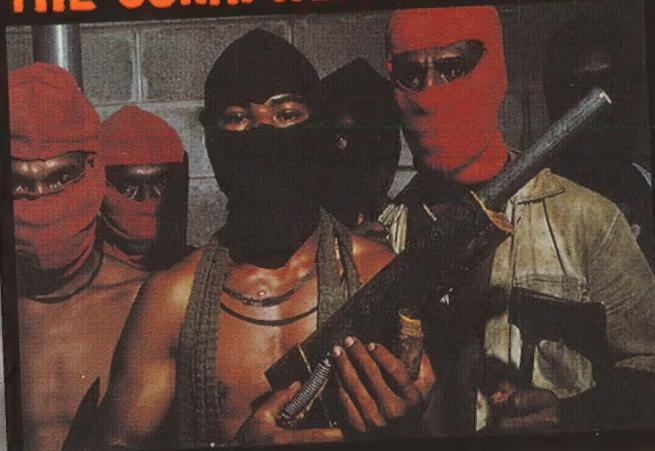

Their cops, their judges and their prisons punish us for breaking their laws that protect their property and privileges - so why shouldn't we riot against them.

It's Us against Them.

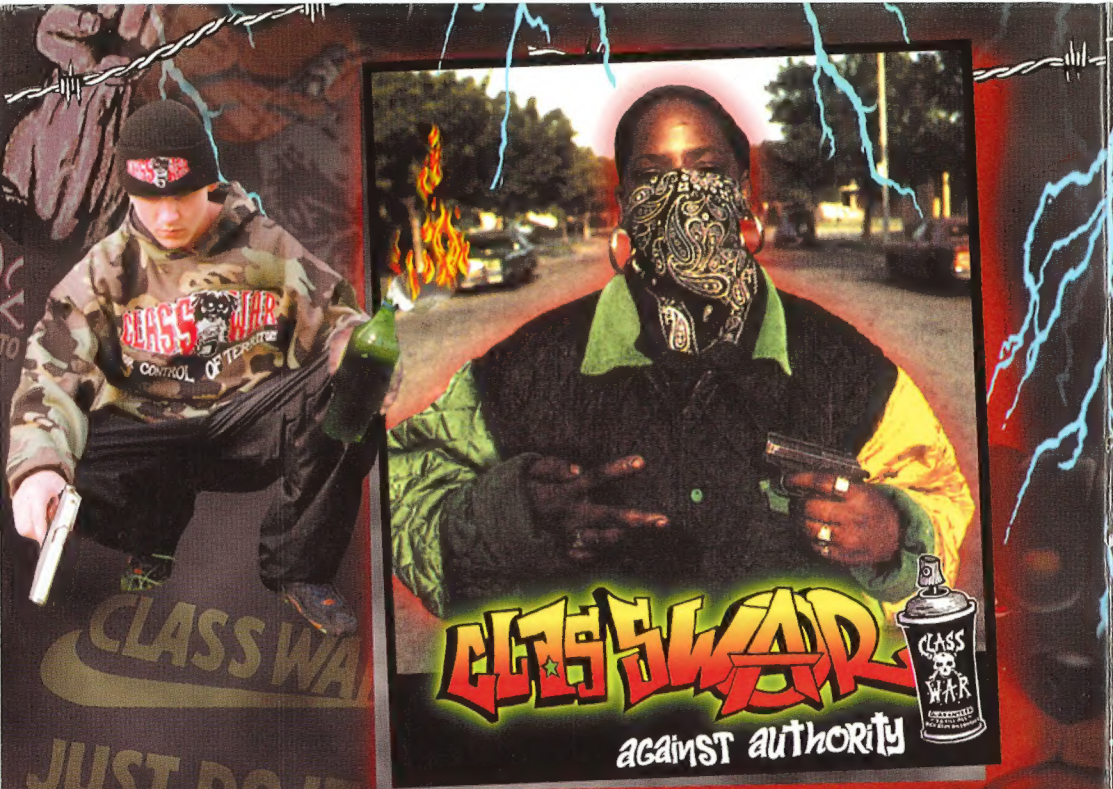

Always was, always will be.

This is our reaction - this is us putting the words "fuck you" into action.

THE SCRAPHEAP GENIUSES

WILL BE THE WEAPONSMITHS
OF THE CLASS WAR ZONES

This is our threat, and the strength of that threat is unity. It is easy for them to pick on us when we are alone. To stop and search us, throw us into the cop wagon then into the cells; cut off our electricity, phones-then evict us. Easy-because they work together against us. Our strength is us working together against them. Them-the cops, the social security, the banks, the real estates, the security guards, the teachers . . . the whole scummy lot of finger pointing power junkies who think that because they've got a cheap uniform, a stupid tin badge and the law behind them, they can walk all over us. Well, they are frightened of one thing, and one thing only-and that is us sticking together and fighting them and not each other. Watch as their faces light up with fear when they realise they are no longer pushing round a lone helpless person, but are having their backs shoved up against the wall by an angry mob with only one thing on their minds - justice !!

Our justice is defence and attack, always.

Our justice is a stand up fight against evictions and arrests, harassment and threats, disconnections and repossessions, rapists and child molesters in the areas we live. Our justice is an end to the robbing and mugging of us and the beginning of all crime targeted at the rich, and only the rich. Our justice ensures police informants never walk again. Our justice is organising a bust fund to help people pay fines, bail people out and help suffering families. Our justice is a fighting fund to finance the CLASS WAR defence and attack. Defence of our class and an attack on theirs-by any means necessary.

CLASS WAR

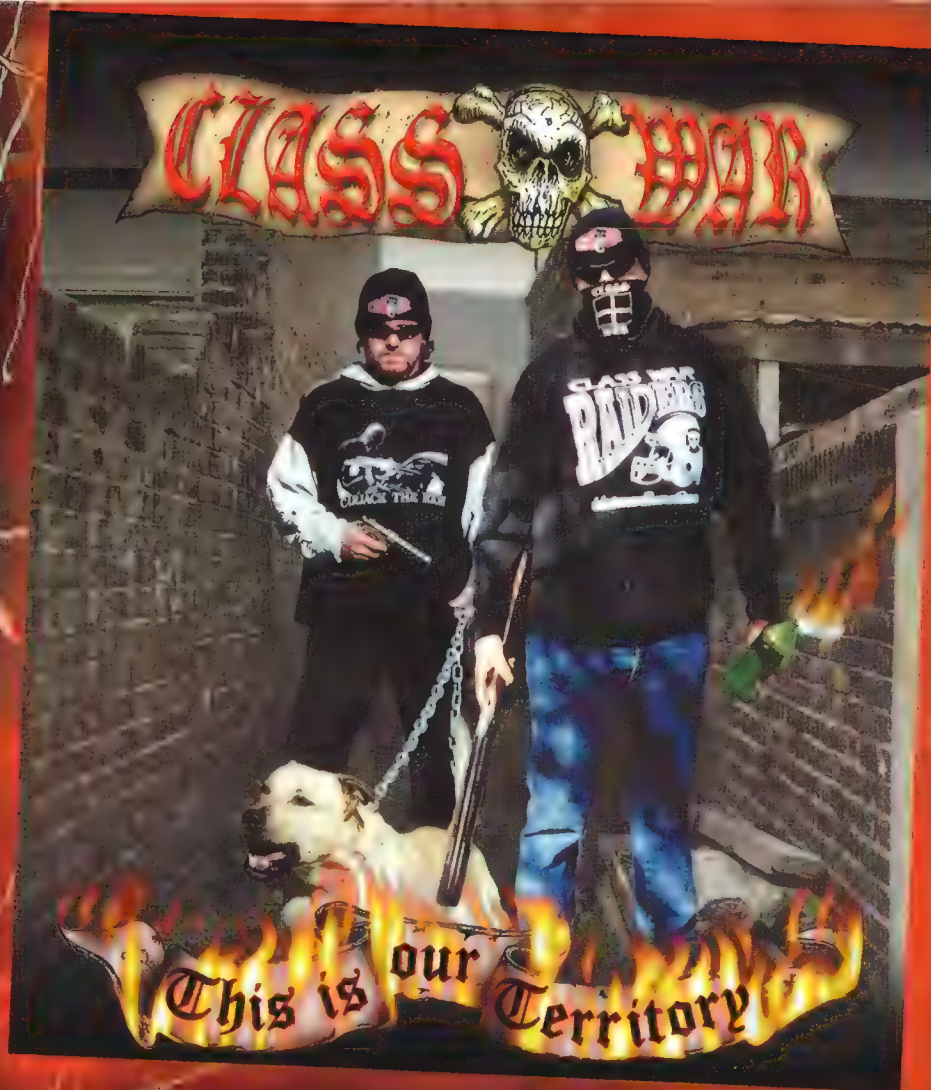

TO OUR NATURAL ENEMY
THE RICH AND ALL WHO
PROTECT AND SERVE THEM...
BEWARE YOUR FUTURE
EXECUTIONERS!

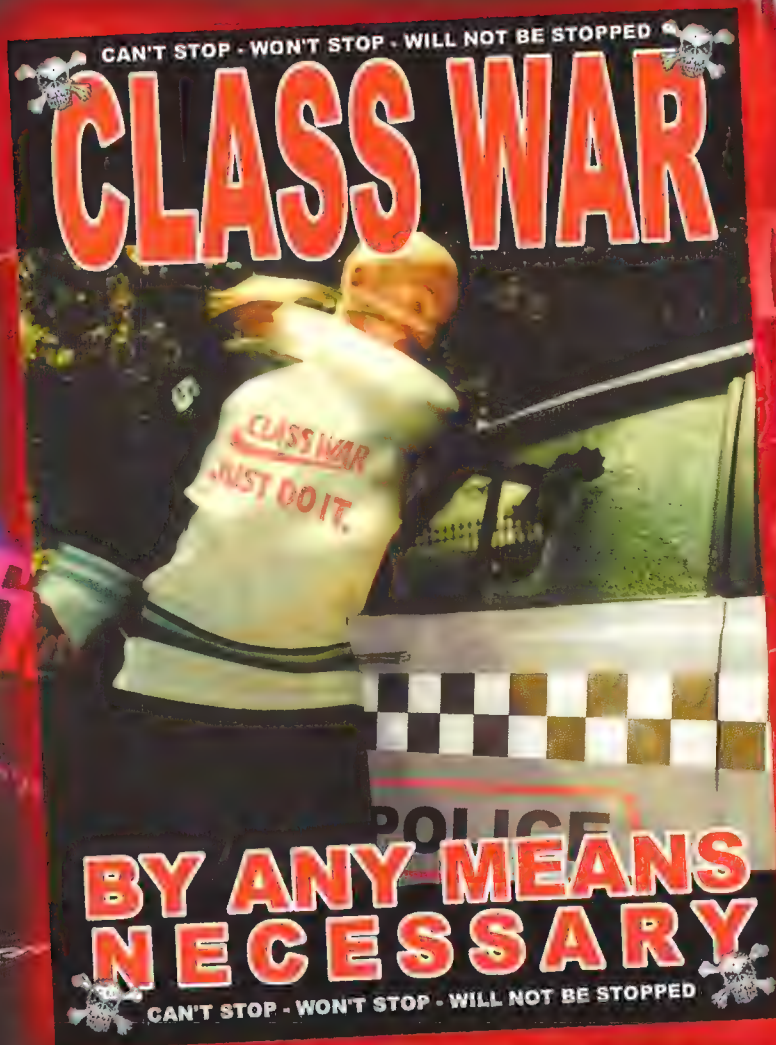

If we organise in this way, we will build friendships and allegiances with others - young and old, men and women, who will help us in many ways. These people may not all want to be street-fighters and bank-robbers, but they will help us by lying for us in court, giving false information, looking after the kids of those on 'actions' and by providing safehouses and stash spots for when the heat is on. In return, they will share our gains and be protected by us. This will be the beginning of a new community - one that sees the the authorities as the enemy and is not at all scared to fight them.

These will be the 'CLASS WAR ZONES'.

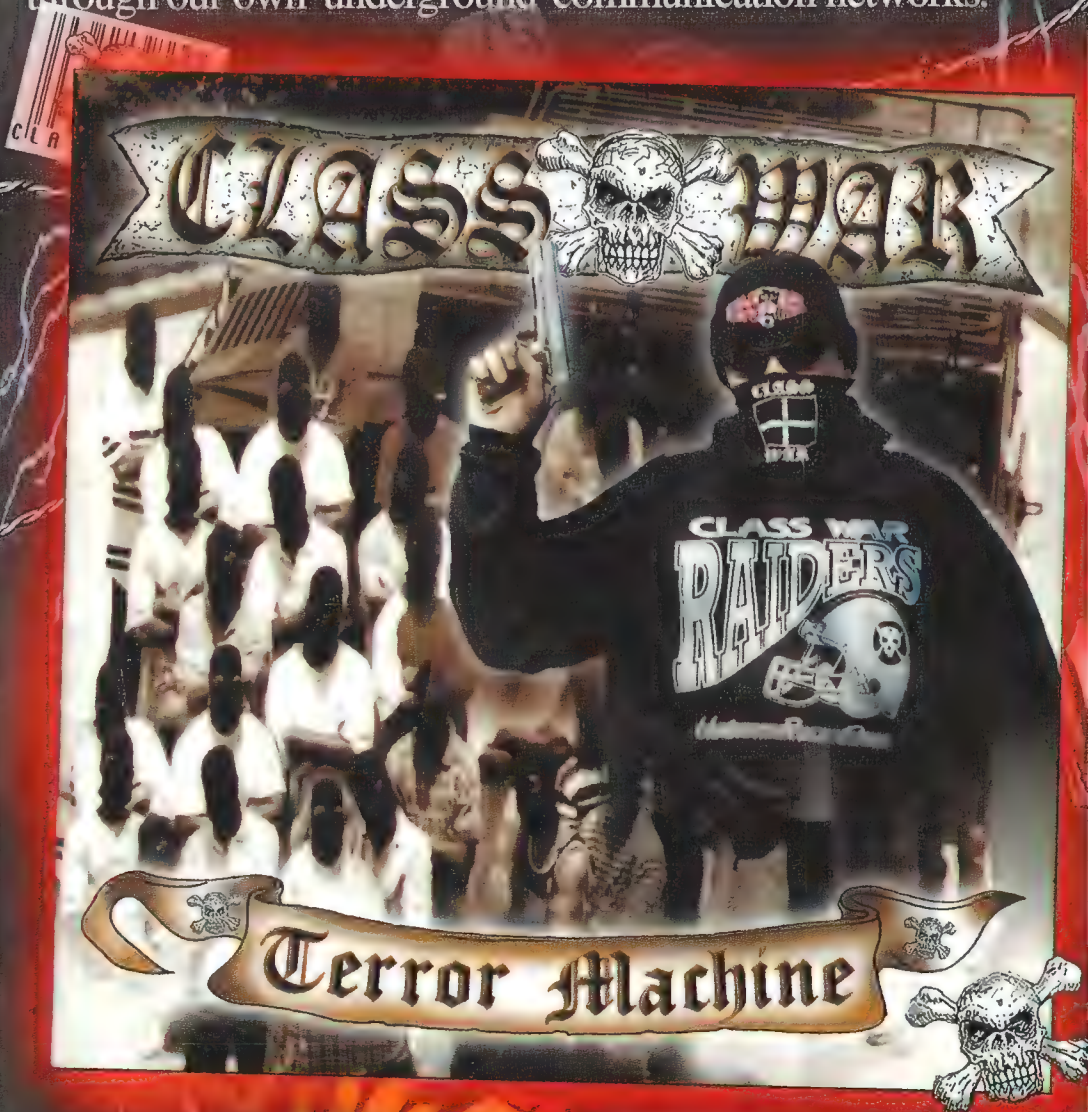

Most importantly it will mean us taking and controlling territory, and controlling territory is POWER. Right now, this territory is areas with high unemployment, law and order problems and housing estates with their own 'illegal' and blackmarket economies. They are places where an underclass have developed a way of life or culture which is seen as 'disorder' by those who run this 'society'.

This culture takes the form of gangs of kids invading shops and nicking things. Pensioners covering for each other whilst they swipe food at the supermarket. Fighting off the cops when they invade parties and peoples' homes; robbing banks; kicking ticket inspectors off trains; bashing the security guards; helping out the 'hard-up' and pensioners with stolen goods; pulling insurance scams; stripping expensive cars; ramraiding and looting shops; abusing and attacking social security spies and informants; dodging the fare...getting up off your knees and fighting back...It is pure rebellion! It is a culture of disorder, and to us it is POWER...

Without that power we are still slaves. This is the power that we will use to both control our territory and attack theirs. Turn it all around. From now on, the victim is gonna be them not us. Take a look around, its already started. The shops, supermarkets and banks of every city will be ours for the taking. They will be besieged by an army of shoplifting gangs, bank-robbers, fake credit card scammers, ramraiders and ATM fraudsters. All hustling for their own benefit and for their supporters in the class war zones. Every time we learn or create a new scam, racket or rort, we will teach it to others through our own 'underground' communication networks.

ANARCH
AGAINST AUTHORITY

This is the beginning of an organised fightback from the streets. It is a fight for justice and for control of territory through rebellion and disorder-unity and tactics. It is the end of suffering alone and in silence at the hands of the rich scum who run everything and the traitors who serve them. To these human vermin we issue this warning: We outnumber you thousands to one. So far you have ruled by forcing us against each other. But not any more. We are organising ourselves to help each other and we are forming our own army to fight you ... where you live, where you work, where you play... and there are millions of us. So, beware...it's payback time! This is **CLASS WAR**...and the war is on!!!

THE WILD ONES ON

THE RAMPAGE

Class War Declaration 1.

We have been copping a hiding from the cops, the media, politicians and other scum who are doing their best to break our spirit and get us fully under their control. All the while the rich are sitting back laughing.

We are not letting them get away with it anymore. It is time to fight back and get some justice for ourselves !!

No longer will the rich be applauded and admired everywhere they go. They will be made to feel the pain and rage we have been made to live under for too long.

Every suited up snob, every gold and diamond covered celebrity queen will be a target...yes a target.!!

How dare they show off such excess before those who'll never have it.

Our response will be sprayed, bashed, spat, sworn, kicked and thrown at every opportunity.

We will not behave ourselves.!

*We will be recklessly wild, rebelliously violent....
..and organised.*

Your cops, spies, informants and investigators will be attacked with sniper tactics of our choosing just when you least expect it..!

They will be held accountable for their treachery, excess, and action against us.

*This is the Big Pay Back ! This is our Justice !
THIS IS CLASS WAR AND THE WAR IS ON !!*

Class War Declaration 2.

Wealthy people have stacked up cheque accounts, inheritances or rich mummy and daddy's to help them out with an endless shower of cash, if they have debts, bills or need bail.

The people who are not rich are left to their own devices. They struggle or go under.

IT'S US AND THEM!

So it's to the cause of unity and with the intention to help the needy and build a strong fighting spirit amongst ourselves that Class War makes this declaration;

We will:

- *help the homeless get a real roof over their heads.
- *Physically and financially fight against evictions and arrests, harassment and threats, disconnections and repossessions; rapists and child molesters in the areas we live.
- *Organise and finance a bust fund to help with legal fees and fines, bail people out and help suffering families.
- *Support striking and sacked workers financially and physically.
- *Organise a fighting fund to finance the Class War defence and attack!! By any means necessary!!

You can help by joining us on the streets-the frontline for the fight back any way you know how.

**THIS IS OUR DECLARATION. THIS IS CLASS WAR...
AND THE WAR IS ON !!...**

Class War Declaration 3.

Class War is an organisation whose aim is to completely change the society we all live in through direct action!

This society is divided between those who have power and those who are at their mercy because they have none. The class of people who have the power own the business' that run and wreck everything.

This society controlled by the rich and powerful is the root cause of all the problems that we suffer today. Real change can only come about by the people at the bottom of society organising themselves to deal with the problems they face.

It is not about negotiating to become better treated slaves. It is about rising off our knees and fighting back and never giving in.. Ever!

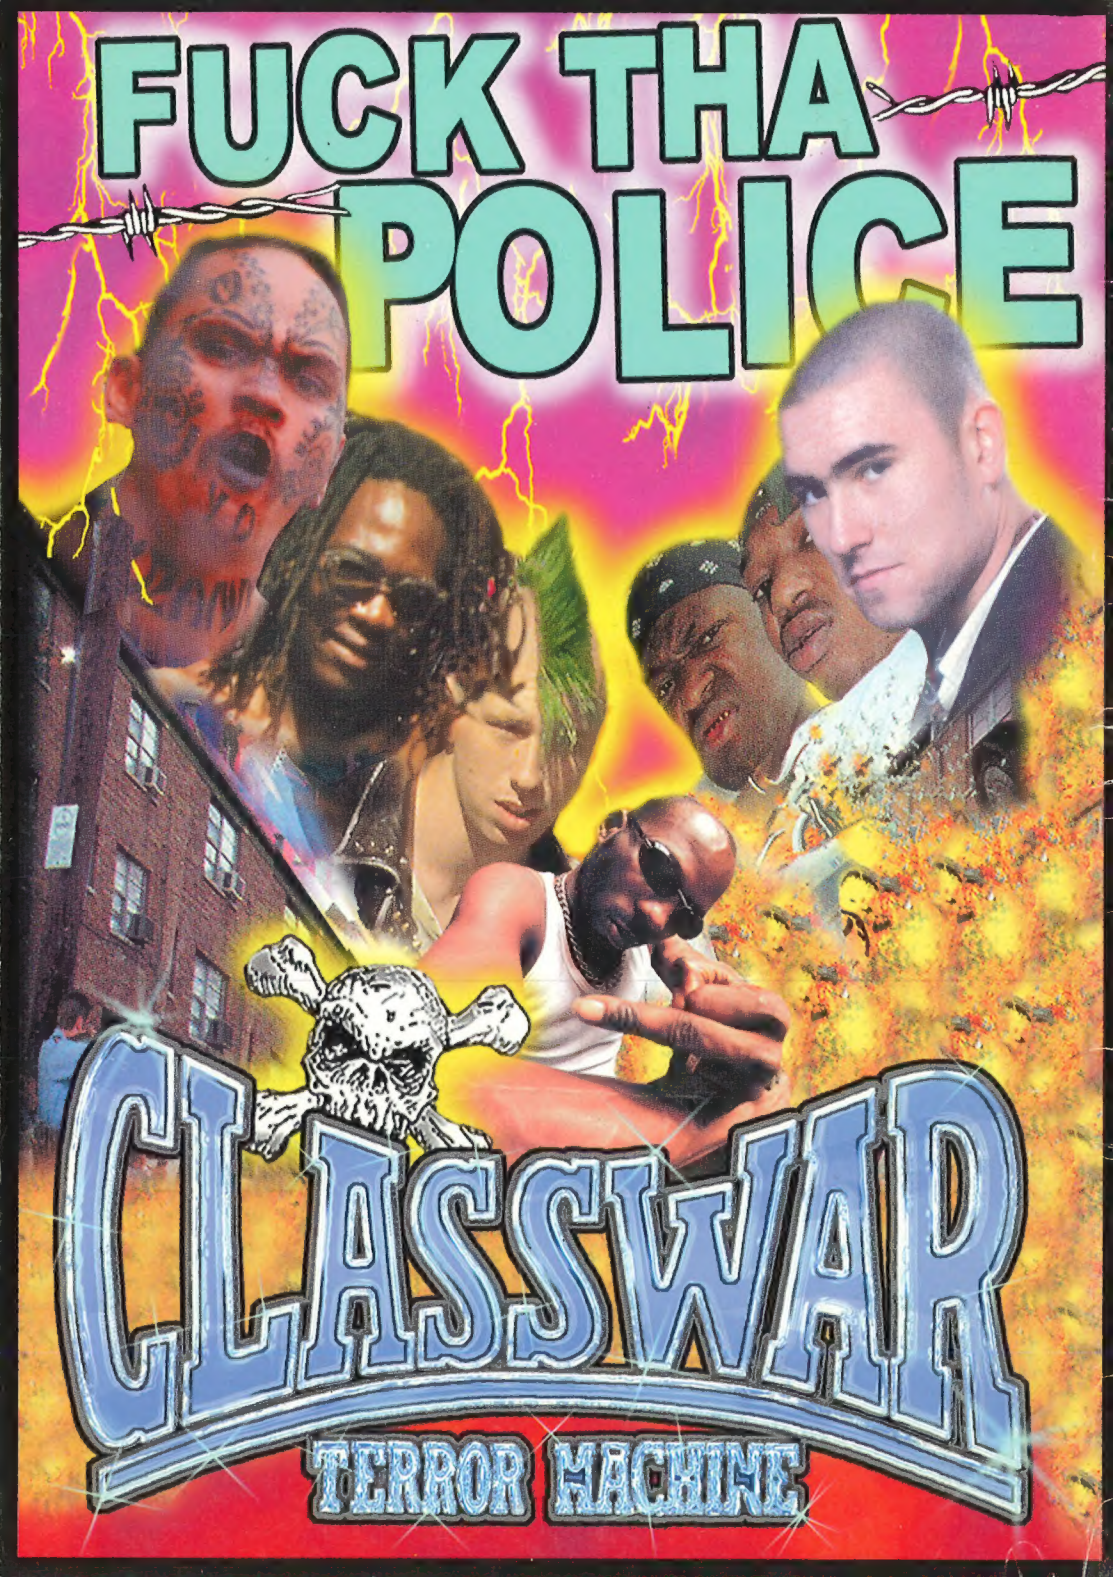

Direct action is needed against the forces that would keep us on our knees forever. There is no other way!!

No one can do it for us, we must do this ourselves! We will not be afraid of confrontation in our fight against those who exploit, oppress, imprison and harass us.

We will fight by any means necessary. We will unite with those who suffer the same problems as us. Where these people come from, their sex or any other difference does not matter. Our unity will run deep. Anything that brings us together to help one another is what we need more of. We outnumber them a thousand to one! At the moment they have us divided and controlled. All we have to do is unite and fight back!!

Never Surrender! Class War!

The poster features a collage of faces, including a man with tattoos and a screaming expression, a woman with sunglasses, a man with a mohawk, a man in a suit, and a man in a white tank top and sunglasses. A skull with crossed bones is positioned above the word 'CLASSWAR'. The background is a mix of a brick building and a fiery explosion.
